

## Who installs patches for the operating system in Windows hosting?

Artikelnummer: 466 | Waardering: Nog geen waardering | Laatst bijgewerkt: Mon, Jun 11, 2012 12:08 PM

We install patches on your Windows server once a month when those are available, provided that you registered for the "Automatic OS Patches & Upgrades via WSUS (option available with [Evolve](#) and [Value](#) server, included in [Perform](#)"). Upgrades of the operating system to a newer version are not included in this Service Pack. Our support can do this for you (paying service).

Mind that you can also use the Windows Update function to keep your server updated yourself.
