

What are website statistics and where can I find them?

Article Number: 580 | Rating: Unrated | Last Updated: Fri, Sep 28, 2012 4:12 PM

Website statistics are included in every shared hosting package (Windows and Linux). The daily and monthly reports show the number of visitors of your website, which pages are the most popular, etc. They are generated by means of AWStats.

You can consult your statistics in [MyAccount](#).

- Click "Shared Hosting" left in the menu bar.
- Click the domain name of your hosting package.
- Click "Your website statistics" in the menu bar.
- You will find the reports on this page.

The website statistics are **updated every 24 hours**. So you can consult the statistics up and till yesterday. Your statistics are also available through this url: *<http://awstats.hostbasket.com/yourdomain.be>*.
